

Meet diverse needs with efficiency

HPE solutions for virtualization

Do more with less

When you're running a small to midsize business (SMB), you've got to make the most of everything. Whether that means working through lunch or printing on both sides of the paper, you do what it takes to save time and money so you can plow both back into the business.

However, stretching the budget can be especially tough in the digital era, when you need to support an increasing number of workloads and users on a limited budget. For example, taking advantage of more

advanced technologies such as [virtualization](#) and hybrid cloud could ramp up your competitive ability and help you protect the business from cyberthreats and other disasters with robust data protection and business continuity planning. But these capabilities may feel out of reach if you have limited in house IT resources.

HPE Solutions for Virtualization are designed just for your needs, helping you do more with less by giving you the power and flexibility of multiple servers, but with the size, savings, and simplicity of a single server.

Solution brief

HPE Flex Offers

Maximize your savings with HPE Flex Offers.

Get more of everything

HPE Solutions for Virtualization are built on HPE ProLiant micro tower, tower, or rack servers combined with Microsoft Hyper-V or VMware vSphere® to meet a wide variety of virtualization use cases.

These solutions enable:

- **Efficiency:** Because more applications can share powerful IT resources, the entire business will get more from IT.
- **Availability:** Reduce the chance of unexpected interruptions of internal or external services.
- **Flexibility:** Serve multiple departments with different or varying needs by offering dedicated environments to avoid IT resource conflicts.
- **Redundancy:** Avoid unplanned downtime by selecting a solution with two servers so you can keep going if one server becomes unavailable.

Easily evolve to hybrid cloud

HPE Solutions for Virtualization can be easily extended to hybrid cloud for additional disaster recovery options with cloud services from Microsoft Azure or a managed service provider.

It's all about choice

With your choice of optimized configurations, validated with leading hypervisors, you get the power to grow your business without boundaries. Contact your authorized HPE representative to find out more.
